

RJNAMM 2021, Vol. 36 No.5

G. A. BOCHAROV, D. S. GREBENNIKOV, R. S. SAVINKOV Frontiers in mathematical modelling of the lipid metabolism under normal conditions and its alterations in heart diseases	255–266
T. K. DOBROSERDOVA, YU. V. VASSILEVSKI, S. S. SIMAKOV, T. M. GAMILOV, A. A. SVOBODOV, L. A. YURPOLSKAYA Two-scale haemodynamic modelling for patients with Fontan circulation	267–278
V. N. LEONENKO Herd immunity levels and multi-strain influenza epidemics in Russia: a modelling study	279–291
N. V. PERTSEV, V. A. TOPCHII, K. K. LOGINOV Numerical modelling of the transition of infected cells and virions between two lymph nodes in a stochastic model of HIV-1 infection	293–302
S. S. SIMAKOV, T. M. GAMILOV, F. LIANG, D. G. GOGNIEVA, M. K. GAPPOEVA, P. YU. KOPYLOV Numerical evaluation of the effectiveness of coronary revascularization	303–312
